Hi Denny,

I firmly believe that the techniques you taught me years ago have been a firm foundation of my successes and the success of my students. I've been at this gig only 20 years, (teaching grades 2nd thru 4th) and am still going strong!

You're the big reason for that -- without a doubt, the best workshop I've taken to enhance my career. What more can I say, but "ARFF!"

People come and go in your life and often don't realize the impact they have.

You, sir, have made a lasting one.

I realized why he was apprehensive — he could not even do elementary math — and we knew he did not have these skills — and by doing this test, he had to ~~fail~~ once again fail. But I did feel I developed a trust relationship with him and wish I could have been (or maybe I was) influential to help him realize how incredible he ~~was~~ IS!

I now have more tools and phrases should I meet another student like this.

Thank you, Denny, for the support I feel towards my success!

With sincere thanks,

Much of the ~~idea~~ philosophy / thinking you presented here, I realized I already knew. You provided a useable frame work that will allow me to put it into practice. It's shocking that I know to do these things w/ horses, but didn't apply it to the people in my life. Thank you for the light bulb moment.
